

Dear Student,

The Saskatoon Industry Education Council (SIEC) is excited to partner with the Electronic Systems Engineering Technology Program at Saskatchewan Polytechnic to offer students an opportunity to learn program and design to operate their own robot! Students are guided through steps to run a 6-axis collaborative robot. These robots are the newest technology for robots of this style.

This bootcamp is designed for all skill levels. If you have never programmed before, or are looking to expand on a base knowledge of program and design, then this bootcamp is for you.

**Application deadline is Wednesday, March 15**

#### **Hands-on sessions**

- Sessions will be held Saskatchewan Polytechnic
- Open to students in grades 10, 11 and 12.
- Sessions will run from **4:30-7:30PM**
- The Boot Camp will take place on the following dates:
  - Session #1 – Wednesday, March 29
  - Session #2 – Wednesday, April 5
  - NO CLASS APRIL 12
  - Session #3 – Wednesday, April 19
  - Session #4 – Wednesday, April 26
  - Session #5 – Wednesday, May 3

After the application deadline you will be notified via email if you have been accepted into the program. All sessions will be facilitated by Saskatchewan Polytechnic instructors.
