## Exhibitor Information

Join us as an exhibitor at Under the Influence of Our Nervous Systems, a full-day professional development workshop featuring renowned educator and author Dr. Lori Desautels. This event is designed to empower educators with practical, brain-aligned strategies to support student mental health, emotional regulation, and trauma-sensitive learning environments.

Dr. Desautels, a leading voice in Applied Educational Neuroscience, will guide attendees through tools and practices from her latest book, *Body and Brain Brilliance*, offering actionable insights to help schools better support trauma-impacted students and strengthen classroom relationships.

As an exhibitor, you'll have the opportunity to connect directly with a targeted audience of educators, administrators, and mental health professionals who are passionate about student well-being and looking for resources to support change in their schools and communities.

This event provides a unique platform to:

- Showcase your products, services, or resources
- Network with key decision-makers in education and youth wellness
- Align your brand with an important initiative advancing mental health in schools

We invite you to be part of this impactful day, where learning meets action and community building. Your presence helps support the broader movement toward trauma-informed, resilient education systems.

For questions or further assistance, please contact Sarah at [sarah@saskatooniec.ca](mailto:sarah@saskatooniec.ca) or 1.306.683.7781.
